RALL arched bench with backrest | **LRA072.00**

From collection rall

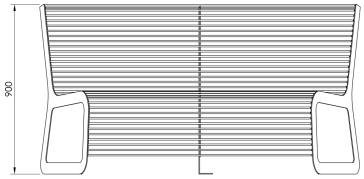

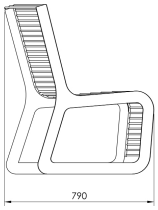

RALL arc bench with 45° bend angle with a steel seat and structure.

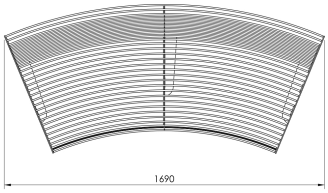

The LRA072.00 model has a backrest and can be used to create rows in the form of a ribbon with other benches from the RALL collection.

The modern form of the RALL collection can both create the character of the place and easily build its transparent background. RALL elements are perfect for spaces where the visual impact of architectural elements should be limited.

Dimensions and materials available below.

MATERIALS

STEEL

POWDER COATED STEEL

STAINLESS STEEL
