

RALL arc bench with 45° bend angle with a steel seat and structure.

The LRA073.00 model has no backrest and can be used to create rows in the form of a ribbon with other benches from the RALL collection.

The modern form of the RALL collection can both create the character of the place and easily build its transparent background. RALL elements are perfect for spaces where the visual impact of architectural elements should be limited.

Dimensions and materials available below.

MATERIALS

POWDER
COATED STEEL

STAINLESS
STEEL
