

TBE143.00 model is a picnic set composed of the 160 cm wide and 80 cm high BEVEL table and two 155 cm wide BEVEL benches with no backrests. The table and benches are made of wood with a concrete frame.

When designing the BEVEL collection, we wanted to fully exploit the properties of concrete. Openwork, bevels, narrowing, variable cross-section – the use of concrete allowed us to create spatial structural elements, visually light while maintaining full durability and functionality. BEVEL stands for expressive furniture for urban spaces.
